

We appreciate there is lots of different options to consider. We are here to support.

Between September – December you will receive paperwork from the EHCP team. It is important this is returned by the allocated date, to secure a post 16 post. This still needs to be completed and returned, even if the young person is staying on at current school. Please also note this rule applies for transport. Transport needs to be applied for post 16. Please check with colleges and training providers to see if they offer own transport support.

Daventry Hill School is pleased to announce from September 2019, we are offering the Foundations for the Future curriculum along with schools across Creating Tomorrow MAT.

The Creating Tomorrow MAT has been nationally recognised for the Foundations for the Future curriculum and its success in preparing post 16 students for adult life. The curriculum has achieved outstanding outcomes which has led to local authorities from outside of Northamptonshire commissioning the trust to advise and implement the curriculum across schools in there authority.

An example of these outstanding outcomes is that from one pathway a 75% employment rate was achieved with the national average of people with learning needs being below 5%.

The post 16 offer is personalized to the young person's needs. Focusing on the four main strands – employment, independent living, community inclusion and health.

If you need any more information please contact the college/post 16 provider directly, or Stacey Drake
